WARNING:

Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.

**ADDITIONAL SHEETS CONTAINING STATEMENTS ESTABLISHING
UNINTENTIONAL DELAY IN CONNECTION WITH PETITION FOR REVIVAL OF
AN APPLICATION FOR PATENT ABANDONED UNINTENTIONALLY
UNDER 37 CFR 1.137(b)**

Dear Sir,

The above-identified application became abandoned for failure to file a timely and proper reply to a notice or action by the United States Patent and Trademark Office. The date of abandonment is the day after the expiration date of the period set for reply in the office notice or action plus any extensions of time actually obtained.

In connection with the Applicants petition for revival of the above referenced application, the Applicants have attached this detailed explanation of the factual events which led to the unintentional abandonment of the above-identified application, as well as the subsequent unintentional delay in filing the required reply which occurred thereafter. The details are as follows:

On December 15, 2004, the USPTO mailed a first substantive Office Action on the merits to Mayer, Brown, Rowe & Maw LLP ("Mayer Brown"), to which a response was subsequently filed on June 15, 2005.

On March 3, 2006, Joseph A. Mahoney, an attorney of record at Mayer Brown in the above-identified application, filed a Request For Withdrawal As Attorney (37 CFR 10.40(c)) ("the Request") on behalf of all attorneys/agents of record. The Request was received by the United States Patent and Trademark Office ("the USPTO") on March 7, 2006. The Request indicated that the last known mailing address of the inventors or assignees of the entire interest in the application was:

James Smith
President and CEO
Felton International, Inc.
8210 Marshall Drive
Lenexa, KS 66214

On May 9, 2007, the USPTO mailed a Decision On Petition To Withdraw From Record to Mayer Brown, indicating that the previously filed Request had been approved and that all attorneys/agents of record in the application had been withdrawn.

On July 18, 2007, the USPTO mailed a Final Office Action. However, rather than mailing the Final Office Action to the last known mailing address that had been previously provided in the Request, the Office Action was mailed to the first named inventor at the following address:

Boris Smolyarov
U. Yanonisa Street House 17
Apt. 185
Voronezh, 394051
RUSSIAN FEDERATION

Accordingly, when the Request was approved by the USPTO, the correspondence address information for the above-identified application was not updated by the USPTO in their patent file management computer systems to reflect the most recent correspondence address provided in the Request. Therefore, the assignee of the entire interest in the application did not receive the Final Office Action from the USPTO.

On October 29, 2007, Mayer Brown electronically filed a new, properly executed Power of Attorney ("the POA") with the USPTO, which named the Mayer Brown practitioners associated with customer number 26565 as the attorneys/agents of record for the above-identified application. The USPTO received the POA, as evidenced by the electronic filing receipt having EFS ID No. 2388463. However, the POA was not properly or fully entered into the USPTO's various patent file management computer systems. When the USPTO received the POA, it was scanned into the USPTO's electronic file wrapper system, Electronic Desktop Application Network ("EDAN"). However, the new correspondence address from the newly filed POA was never entered into the USPTO's Patent Application Location and Monitoring ("PALM") system, which

contains all of the correspondence information, for each pending patent application or granted patent, that is used by the USPTO to send out any correspondence related to a patent or patent application. The correspondence information contained in the PALM system can only be updated by a manual data entry process, in which an individual at the USPTO must manually type in the updated correspondence information located in the newly received POA. This manual data entry process of updating the correspondence address was never performed when the USPTO received the new POA filed by Mayer Brown for the above-identified application. Accordingly, the USPTO did not have the correct correspondence address in their PALM system.

On February 7, 2008, a Notice of Abandonment was mailed out by the USPTO. However, because the PALM system was never updated to reflect the correspondence information associated with customer number 26565, as was provided in the POA for the above-identified application, the Notice of Abandonment was not mailed to the attorneys of record at Mayer Brown. Rather, the Notice of Abandonment was incorrectly mailed to Mr. Smolyarov at the same address used by the USPTO for mailing the Final Office Action.

On January 9, 2009, unaware of either the mailing of the Final Office Action or the abandoned status of the application, William Cassin, an attorney at Mayer Brown, contacted Examiner Nick Luchesi, the Examiner Supervisor for Art Unit 3763, to ascertain the status of the application and inquire as to why no Office Actions had been received by either the assignee of the application or the attorneys of record since the first Office Action had been received on Dec. 15, 2004. It was during this phone call that the above events related to the correspondence address not being properly updated by the USPTO was discovered by Mr. Luchesi and explained to Mr. Cassin.

On January 15, 2009, Examiner Luchesi faxed a copy of the Final Office Action to Mr. Cassin so that a response to the Final Office Action may be drafted by Mayer Brown.

On January 22, 2009, Examiner Luchesi faxed a copy of the Notice of Abandonment to Mr. Cassin as well as a copy of the Notice of References Cited in the Final Office Action.

The Commissioner is hereby authorized to charge any additional fees (or credit any overpayment) associated with this communication to our Deposit Account No. 13-0019. Thank you in advance for your cooperation.
